

## American Rescue Plan Act (ARPA) Community Strategies for Optimal Utilization

MRB Group team members have been hearing from municipal leaders who have questions about the access, use, and reporting requirements for their ARPA (American Rescue Plan Act) /CLFRF funding:

Common questions:

- What activities qualify?
- What can't we do with ARPA?
- What strings are attached?
- Who do we turn to if we have questions?
- When will the money arrive?
- Do we have to change how we keep records?
- Do we really need a grant administrator?
- Are we going to get audited?
- What are my neighbors doing with their ARPA money?

To facilitate information sharing, MRB Group's **SmarterLocalGov** team is organizing and leading roundtable discussions, inviting municipal leaders to share their questions, concerns, and ideas.

Please join us as we discuss strategies being considered to make these funds stretch further.
